ResDish
FOOD RESCUE

Turn your surplus food into revenue

Sell wrong orders, no-shows and end-of-day extras to customers nearby, instead of throwing them away. No commission on your food sales.

🌱 First 50 restaurants: free for life

Your restaurant dashboard

Every kitchen ends the day with good food it can't sell

You already paid for the ingredients and the labour. Throwing it out turns that cost into a total loss.

Wrong orders

A dish made with the wrong ingredient, or the wrong size, that the customer sent back.

No-shows and cancels

Delivery drivers who cancel, and pickup orders nobody comes for.

Closing-time extras

The last trays and portions you made too much of, when demand was lower than expected.

ResDish sells it to people nearby, within the hour

Recover revenue

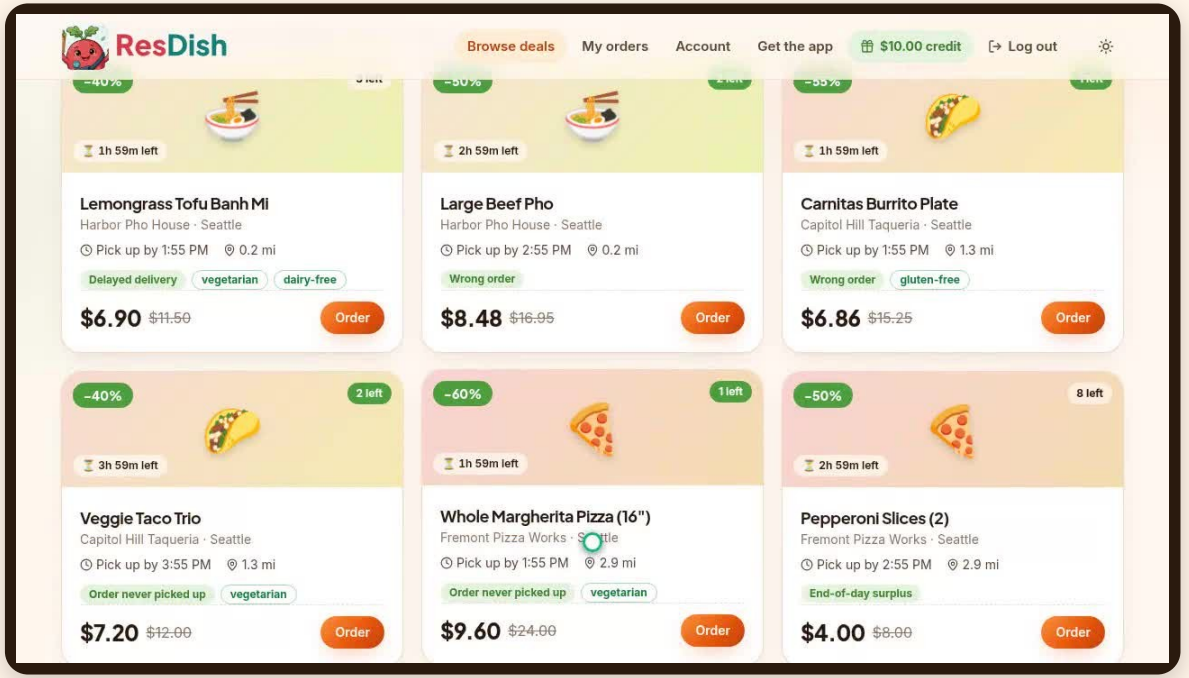

Earn from food that would otherwise go in the bin.

Win new regulars

Customers discover you through a deal, then come back at full price.

Waste less

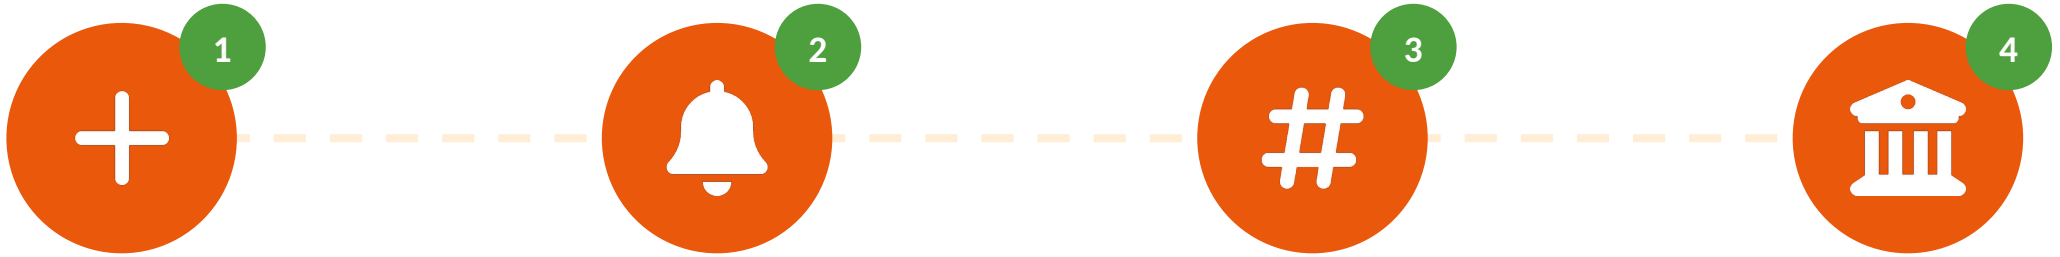

Every meal sold is one less in the landfill, and a story your customers like.

What customers see: live deals near them, with distance and a pickup countdown

ResDish FOOD RESCUE

Four steps from extra food to money in the bank

Post it

Pick a dish from your menu, set the discount, quantity and a discard timer. About a minute.

A bell rings

A nearby customer orders. Their card is only held, not charged, for now.

Check the PIN

At the counter, type the customer's 4-digit pickup PIN and hand over the food.

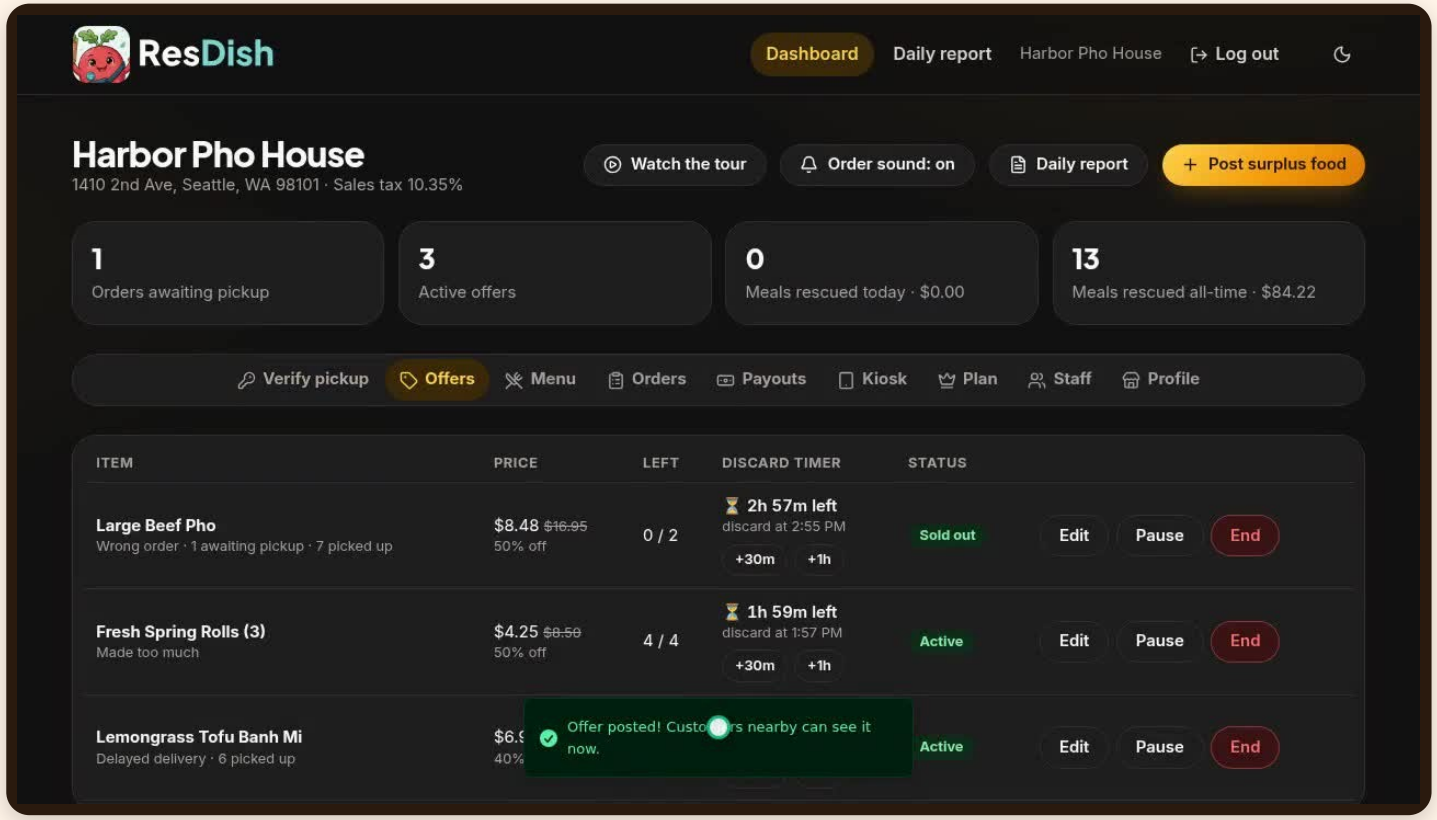

Get paid

The card is charged at pickup, and your share goes to your Stripe account.

No-shows are released automatically when the discard timer ends, and the customer is not charged.

ResDish
FOOD RESCUE

Post an offer in about a minute

Pick from your menu

Photos, dietary tags and allergen notes come with it. Import your menu from your website or a file.

Discard timers

Each offer ends when the food stops being safe to sell. Extend it with one tap.

Pause, edit or end

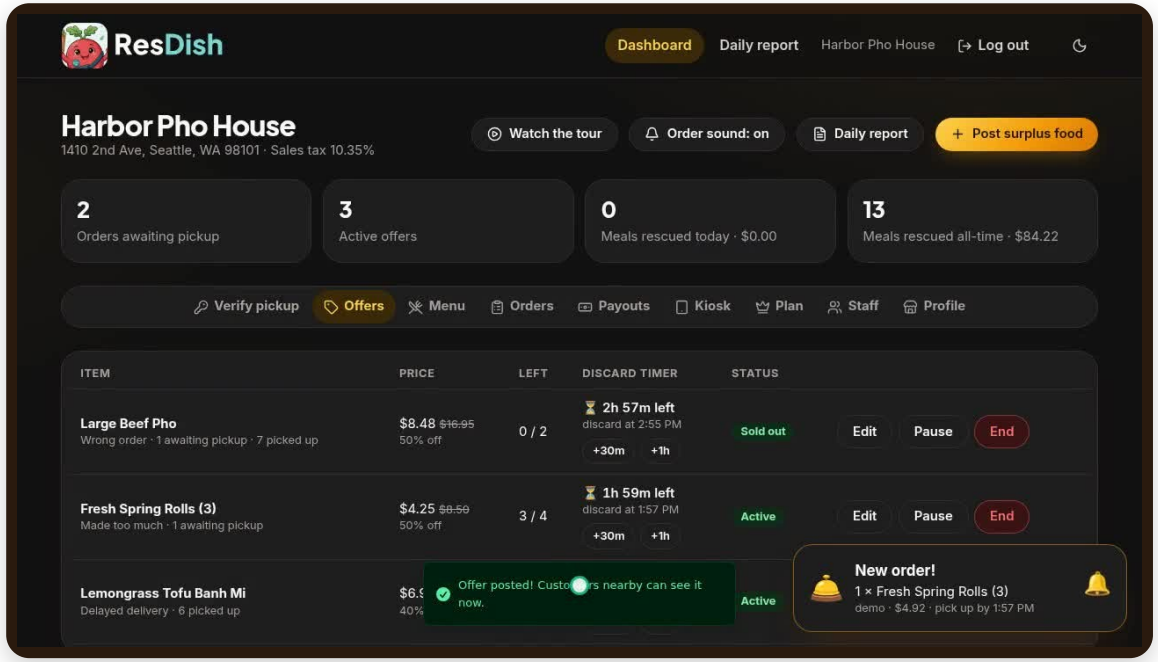

Stay in control of every offer, any time.

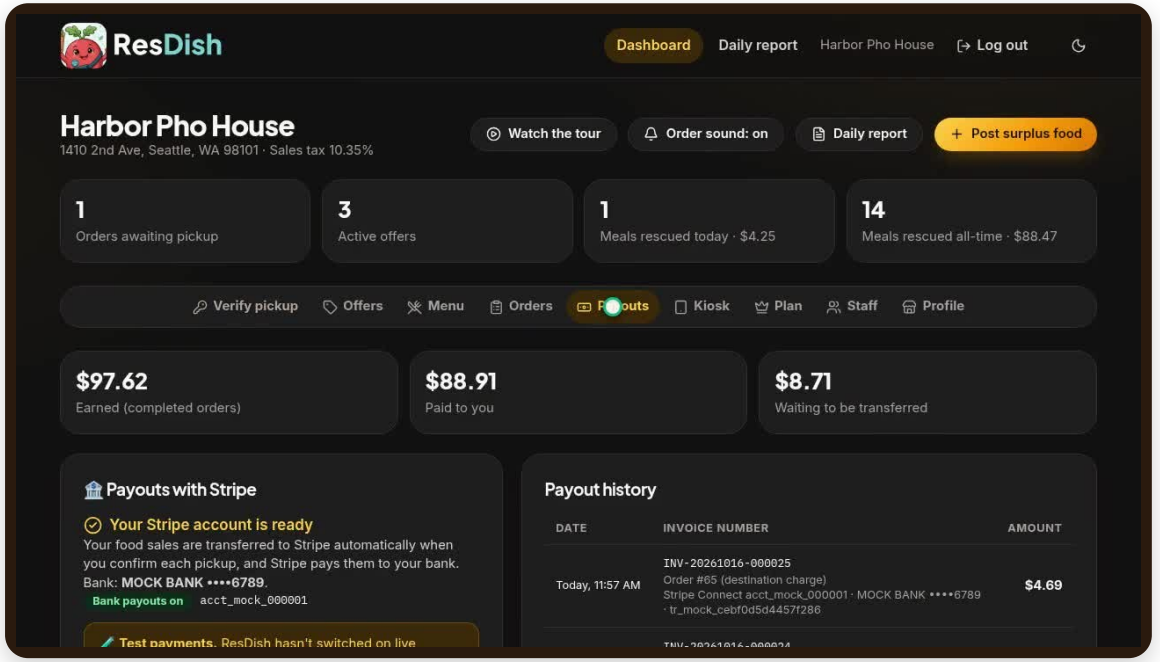

Your whole team

Add managers and supervisors with their own logins.

ResDish FOOD RESCUE

Counter kiosk on any tablet, payouts at every pickup

Counter kiosk. Open your private kiosk link on any Android tablet or iPad. New orders ring a bell; staff type the PIN. No special hardware.

Payouts and reports. Every payment with its invoice number, in US or Canadian dollars. Daily sales reports with print, PDF and CSV.

ResDish FOOD RESCUE

One simple plan, and no commission on your food sales

ONLY 50 SPOTS

Pioneer Member

$0 free for life

The first 50 restaurants approved

- No card needed
- Every feature included
- Spot assigned in order of approval

Monthly

$15 per month

Any approved restaurant

- Charged monthly in advance
- Turn off auto-renewal any time
- Every feature included

Annual

$150 per year

Any approved restaurant

- Save $30 a year ($12.50/month)
- Reminder a week before renewal
- Every feature included

You receive the full discounted price of every meal you sell, plus its sales tax. Customers pay a separate ResDish service fee on top. ResDish promotional coupons may reduce the food price as set out in the Restaurant Partner Agreement. Plans are billed in US or Canadian dollars.

ResDish FOOD RESCUE

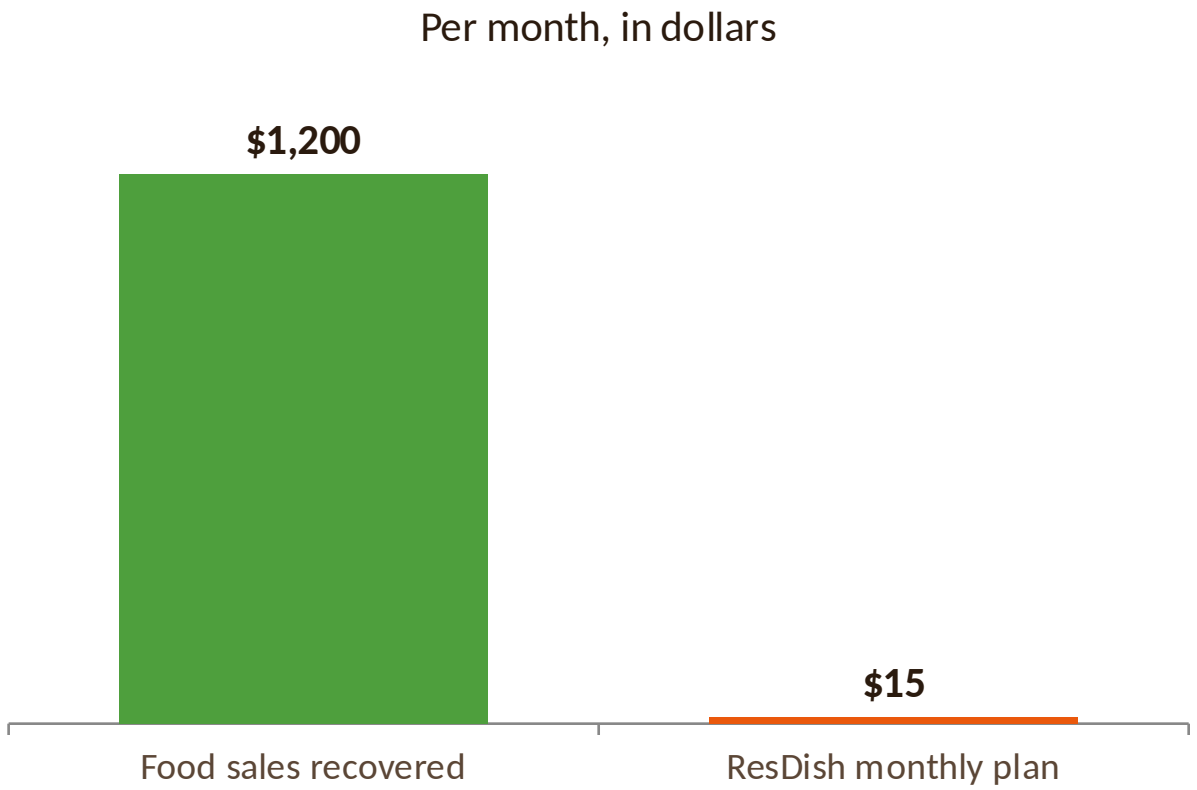

Five meals a day can add up to about $1,200 a month

An illustrative example. Your numbers will differ.

5 surplus meals sold per day

$8 average discounted price

30 days open per month

Pioneer Members pay $0, so every dollar is recovered revenue. Figures are for illustration only, not a forecast or guarantee of sales.

ResDish FOOD RESCUE

Built so you never lose out on an order

Card hold, then charge

The card is held when the customer orders and charged at pickup.

Pickup PIN

Every order has its own 4-digit PIN, so the right food goes to the right person.

Real customers

Fake and throwaway emails are refused. Repeat no-shows are suspended, then banned.

Taxes handled

Sales tax is set from your address and shown on every receipt and report.

We handle support

Customer questions, refunds and credit are handled by ResDish.

US and Canada

Customers pay in US or Canadian dollars, by the restaurant's country.

Start selling this week

1. **Sign up online**
   Enter your restaurant details and accept the partner agreement. A few minutes.

2. **Get approved**
   Usually within one business day. Set up your menu meanwhile.

3. **Connect payouts**
   Link your bank account through Stripe, open the kiosk on a tablet.

4. **Post your first dish**
   And listen for the bell.
